

Øjets muskler

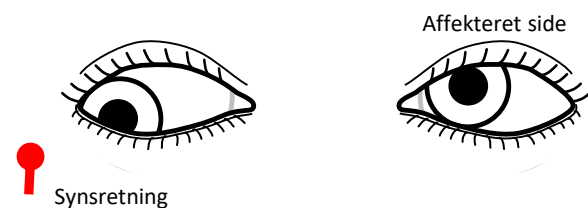

Oculomotorius parese

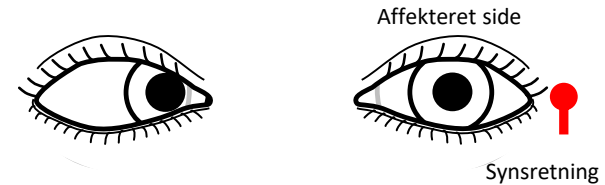

Affekteret øje er drejet ned og lateralt. Ofte samtidigt ptose og dilateret pupil. Horisontalt dobbeltsyn.

Trochlearis parese

Problem med at se ned ved adduction. Vertikalt dobbeltsyn

Abducens parese

Problem med at abducere øjet. Kan være bilateralt. Horisontalt dobbeltsyn.
